as Clear as a Baby's.

"If I had known of the Cuticura Remedies fifty years ago it would have saved me two hundred dollars and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly over my body and got under my nails. The scales would drop off of me all the time and my suffering was endless and without relief. A thout sand dollars would not tempt me to have this disease over again. I am a poor man but feel rioh to be free of what some of the doctors called leproey, some ringworm, psoriasis, etc. I took and a half but got no oure. I cannot praise the Cutioura Remedies too much. They made my skin as clear and free from scales as a baby's. All I used of them was two cakes of Cuticura Soap, three bottles of Cuticura Olntment and three bottles of Cuticura Individual have cured me for two hundred dollars, you would have had the money. I was covered with the scales but by using Cuticura I was soon as clear as any person ever was. This was over twenty-two years ago and for a long time, through force of habit, I used to rub my hands over my arms and legs to scratch, but to no purpose — I was well. I had scratched twenty-eight years and it got to be a kind of second nature to me. Dennis Downing, Waterbury, Vt., November 27, 1909."

Steele, with his wife and child, started down to the ocean on a fishing trip in their launch, the Pauline. They were far out when the engine broke, in the heavy sea it was all Steele could do to keep his boat headed to the waves that threatened every moment to upset them. The frightened woman and child huddled in one corner. #### TOOK LONG TRIP

TOOK LONG TRIP

Baughman Boys Travel by Canoe Almost to St. Louis.

Two Richmond boys have just completed an adventurous canoe trip from Charlottesville to St. Louis, a distance of more than 1,000 miles. They are William H. and Nelson Baughman, sons of E. A. Baughman. Others who made the trip were Fayette C. Ewing, of Kirkwood, a suburb of St. Louis; Wharton E. Weems, of Houston, Texas, and Thomas B. Merrick, of Glendower, Va. All of the young men were students during the past year at the University of Virginia.

The party left Charlottesville June 20, taking the waters of the New River, a treacherous and dangerous stream. The young men had many exciting experiences, including shooting the rapids in New River, in which their lives were frequently imperiled. Upon reaching Cairo, Ill., after having traveled 1,080 miles, the party found that, owing to heavy rain, to complete the trip by canoe would be impracticable, and a packet was taken for St. Louis.

The young men were on the water twenty-five days, covering in all, including the packet trip, 1,315 miles, of which 1,125 was made in canoes. The rivers they traveled on are New, Kanawha, Ohio, Mississippi and Moramec. The States they passed were Virginia, West Virginia, Ohio, Kentucky, Indiana, Illinois and Missouri.

August Denaldson Shoots Wife, Probably Fatally, and Makes Escape.
Philadelphia, Pa., July 28.—In the presence of their seven-year-old son, August Donaldson, according to the police, shot and probably fatally wounded his wife, Margaret, at their home here early to-day, following a quarrel. Donaldson escaped, but the police expect to capture him soon.

The child was the only witness to the shooting. Having been awakened by the quarrel of the parents, the boy told the police that he saw his father go to a bureau drawer and get a big revolver. "O, papa, don't shoot mamma," the little fellow pleaded with his father, but the angry parent did not heed the child's pleadings, and, according to the police, shot his wife speared, and the child summoned neighbors.
